About July 1987

Kent Berg
Post Office Box 69
Heber City, Utah 84032

Dear Mr. Berg,

I talked to you by cellular phone from the top of Memorial Hill. My first visit there in 1990 was the happen-chance of my having found a news clipping describing the dedication in 1928 of a monument my mother had designed in the proceeding year, and deciding to find it. That story is related in the book I enclose.

By telephone, the most knowledgeable person I located was the late Pete Coleman who spoke of Memorial Hill being taken into the park system, plans to replace the stolen name plates, bring water to the top, and generate a more community oriented park with the type of installation that would attract people for outings, etc.

It is clear that you are on the way to achieving such a park. My friends who accompanied me were much impressed by the progress. I do hope you will include me in your plans for a re-dedication, perhaps next spring.

The pictures I enclose were taken by my one of my grandson who accompanied me on the trip as chauffeur. I'm encouraging him to take up photography.

Respectfully,

William R. Turner
